

F25_3375_S1_G6_MiniVenture**Week 6**

I worked on the survey questions focusing on the aspects of demographics, lifestyle, motivations, and competitors.

Week 7

I continued to work the survey questions. At the same time, I discussed with team member Chidem on finalizing the survey. The current challenge is finding participants to complete it. One potential solution is to distribute the survey through the Blackboard message system to other classmates.

Week 8

I am currently working on developing personas, scenarios, and storyboards.
