Progress Report 2

Chidem Sabuncu 300402749

F25_3375_S1_G6_MiniVenture

Date	Number of Hours	Description of Work Done
Sep 24, 2025	1	Working on app ideas
Sep 30, 2025	3	App concept and initial repo setup
Oct 2, 2025	1	Brainstorm on app features
Oct 4, 2025	1	Proposal review
Oct 10, 2025	3	Drafted requirements gathering survey
Oct 15, 2025	2	Finalize survey
Oct 24, 2025	0.5	Put survey on Google Forms
Oct 26, 2025	0.5	Publish survey and distribute to people
Oct 29, 2025	2	Check survey results and get charts
Oct 30, 2025	3	Work on survey insights, create personas, work on requirements document draft
Nov 1, 2025	1	Work on requirement document
Nov 2, 2025	2	Work on requirement document
Nov 5, 2025	3	Working on Figma basics
Nov 8, 2025	2	Learning Figma tools
Nov 9, 2025	4	Making moodboard, Designing on Figma
Nov 12, 2025	3	Figma research and design
Nov 14, 2025	2	Prototyping on Figma
Nov 15, 2025	5	Prototyping on Figma
Nov 16, 2025	3	Prototyping on Figma

Week 9 (Oct 20 – Oct 26)

This week I worked on finalizing the survey questions, putting them on google forms and distributing and inviting people to take the survey.

Week 10 (Oct 27 – Nov 2)

Checked the responses for the survey, analyzing the results and getting the charts for the answers. I worked on what was needed for the requirements document; creating personas analyzing results and generating requirements.

Week 11 (Nov 3 – Nov 9)

This week I focused on getting more familiar with Figma. I watched various tutorials on how to use basic design tools on Figma and how to prototype for a mobile app. I made a moodboard before starting working on our prototype and then started working on different views of the prototype.

Week 12 (Nov 10 – Nov 16)

This week I focused on learning how to make the specific elements I wanted on Figma and troubleshooting the parts I was stuck on. Added more pages to the prototype and made progress on connecting different components using flows to make the prototype interactive.

AI Use

| AI Tool Name	Version, Account Type	Specific feature for which the AI tool was used
Gemini Nano Banana	Gemini 2.5 Flash Image, Free	Creating the app logo

*excluding AI use mentioned in the requirements document.

Value Addition:

The most appropriate logo was chosen after trying various AI image generators with different prompts; improving the specification for the logo each time.

Appendix:
Create a minimalistic app logo for a...

Create a minimalistic app logo for an app called MiniVenture, a social app for city exploration and hosting events. the logo should feature the app name on the bottom and a clean iconic representation of a small journey or exploration above it, using a modern sans-serif typeface. The icon should be circular and centered above the app name, in the brand color #FF8811. Complementary colors you can use in the logo are #233D4D and #FCCA46. The logo should have a transparent background and be provided in vector format (svg) for scalability. The app name should be in the main brand color, solid.

Let me help you create that minimalistic app logo for MiniVenture!

I'll create a minimalistic app logo for MiniVenture with your specified requirements. Let me generate this directly for you.

Gemini nano banana

MiniVenture标志

Perfect! I've created your minimalistic MiniVenture app logo
